## ABOUT ME

---

I'm an undergraduate software engineering student that currently studying in the [IJSE-institute Of Software Engineering](#) . I would like to introduce myself as a young and innovative programmer whose trying to make the world a better place.I'm Also Passionate about continuous learning and making a meaningful impact as a **Full Stack Developer**.

## EDUCATION

---

<b>BSc (Hons) in computer science</b>	pending
<ul style="list-style-type: none"><li>university of bolton (UK)</li></ul>	
<b>Graduate diploma in software engineering</b>	Aug 2022-Present
<ul style="list-style-type: none"><li>IJSE- Institute of software engineering</li></ul>	
<b>Academy Of Computer Programming And Training - ACPT</b>	Mar 2023
<ul style="list-style-type: none"><li>APJD - Advanced Professional Java Developer   2023</li><li>certificate link: <a href="#">click here!</a></li></ul>	
<b>G.C.E. Advance Level Examination 2021 - Mathematics stream</b>	Aug 2019-Jan 2022
<ul style="list-style-type: none"><li>Bulathsinhala national school - Bulathsinhala</li></ul>	
<b>G.C.E. Ordinary Level Examination 2018</b>	Apr 2013 -Dec 2018
<ul style="list-style-type: none"><li>Bulathsinhala national school - Bulathsinhala</li></ul>	

## SKILLS

---

### TECHNICAL SKILLS

- Programming Languages – Java
- Web Development – HTML, CSS, JavaScript, React
- Mobile Development – React Native
- Frameworks and Libraries - Spring Boot , Expo
- UI/UX Engineering – Figma, Photoshop
- Database Management – MySQL
- Proficient with project management software - Jira
- Proficient with tools – IntelliJ IDEA, GitHub, VS Code, Postman, NetBeans, Slack
- Architectures - MVC , Layered , Microservices

### SOFT SKILLS

Team Working | Communication Skills | Problem Solving | Time Management

## AWARDS

---

### **Creative Software Solution 1st Place as a team.**

- Institute of Software Engineering (IJSE) | Aug 2024

## PRACTICAL ACHIEVEMENTS

---

### • **Aug 2024 | Hope - Emergency Alert System**

We built an Emergency handling system that can replace the 119 emergency line. We made this project for the Circle Edge competition hold by the IJSE. We won the first place in that competition as the best innovative idea.

### • **Jun 2024 | Shoe Shop Management System**

Small Management web application for a Shoe shop. According to the user roles access level to some features changes in this system. Using this system a user can easily check the stocks, make sales and make refunds.

- Bootstrap • Spring Boot • MySQL • Java

### • **Jul 2024 | Travel App Clone Application System**

Small Travel App clone to practice and improve my mobile app development with react native. In this Travel App clone, i managed successfully clone.

- React Native

### • **Jan 2024 | Web Application**

Developed the Calculator | Digital-Clock | Responsive WebsitePortfolio - To showcase my personal detail and projects I built this portfolio using HTML, CSS and JS. In this project I also managed to learn about responsive web development..

- HTML • CSS • JS

### • **May - Jul 2023 | Library Management System**

I have built this system using the knowledge of Java, JavaFX and software architectures. I built this using the MVC architecture and successfully converted it in to a layered architecture later

- JavaFX • Java • Mysql • JDBC

### • **Sep 2023 | Aqua Buddy Group Project**

Built this as a for the first Innovesta competition. Main purpose of this system is to automate large fish tanks in fish farms. You can monitor vital information like temperature and pH value from this system.

- Java • Arduino • MySQL
